

Лучшие строки и песни мои впереди!

I'll clear
those who tried to bully me from my mind.
There is
your inseparable image with me for all time.
I really believe,
that the fate'll do some positive twist,
And really believe,
that my lucky horseshoe exists.

LET'S LIVE

(M. Safiulin)

Sun shines for everyone alike
I've seen already every angle of life
Happy was I, was I really sad -
Not bad
Both ups and downs I've had a lot
Having had rewards, but had some lost
Everything that helps the Good to make
I take
It's important lessening complaints
And avoiding danger and problems
Everything by fate we're granted with -
All fits
Life is hard, of course, who disagrees?
Opposite itself by all degrees
But doesn't matter what they will believe
Let's live!
